

STONY PLAIN SUN

VOLUME SEVEN.

STONY PLAIN, ALBERTA THURSDAY MAR. 17, 1927

The Lutheran Church and Religious Education

A decaying Protestant Church is today crying for more religious education. Lutherans have at all times taken seriously the Words of God:

Math. 28, 18: Make to disciples all nations by (a) baptizing them and (b) TEACHING them to observe all things whatsoever I have commanded you.

Eph. 6, 4: Ye fathers . . . bring up your children in the nurture and admonition of the Lord.

Dent. 6, 6: These words which I have commanded thee this day shall be in thy heart and shalt teach them diligently unto thy children.

In keeping with these words the Lutheran Church (Missouri Synod) maintains two Normal Schools with a total enrolment of over 600 students who are preparing to be teachers in Lutheran Day Schools. St. Matthew congregation maintains two Christian Day Schools in which religion takes its proper place with the other prescribed courses. —The fear of the Lord is the beginning of wisdom.

Canadian National Railways

Farm Help Service.

+++

Farmers who will be in need of Help for this year's operations should apply at once to their nearest Canadian National Railway Station Agent, or forms for ordering Help may be secured by writing to the Department of Colonization and Agriculture, corner Jasper and 100th St., Edmonton, or to

Paul Werner, - Stony Plain.

Tune In on the

Alberta Wheat Pool RADIO TALKS!

EVERY THURSDAY EVENING
FROM CALGARY

At following times, using stations alternate weeks:

Calgary Herald Radio Station, CFAC 9.15 to 9.30 p.m., immediately preceding C.N.R. program.

W. W. Grant Radio Co., CFON, 8.45 to 9.00 p.m.; following studio program.

EVERY MONDAY EVENING
FROM EDMONTON,

Edmonton Journal Radio Station CJCA, from 8.30 to 8.45 p.m., preceding University of Alberta program.

M. M. Mecklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, March 28th. See him and see good.

Apocryph of Good Roads.

Our idea of an optimist is one who can remember a winter when we had worse roads than we have now. —Hay Lake Times.

LOST, on road to Bright Bank, a man's navy serge suit and lady's navy serge dress. Finder please leave at Sun Office.

LOCAL NEWS.

Today is the anniversary of the birth of St. Patrick—Ireland's patron saint.

Mr. Jack Shearer has gone out Calgary.

Mrs. E. B. Brooks, Edmonton, was a Saturday visitor with friends in Stony.

The W. I. Girls' Club are giving a Court whist party to-morrow evening in the Town Hall.

The Canadian Northern Colonization Co. has appointed Mr. Philip Trapp as their immigration agent for Stony Plain district.

Mr. H. T. Walton has purchased the 80-acre farm just north of town, from Mr. Gus Mintz for \$27,000. The present occupant is Mr. Wm. Rothe. Mr. Walton will move onto his new purchase so soon as this can be arranged. Mr. Bauer, who has been on the P. L. Litzenger farm at Inga for a year, has rented the Walton half-section at Brightbank for the coming season.

In the District Court, Edmonton, on Monday Judge Crawford dismissed an action brought by John Namniaseff of Stony Plain, against Joe Kulak for a balance of \$100 on a hand deal. F. W. Lundy for the defendant Kulak.

Stony's hockeyists played a game with the Duffield team on the local rink on Sunday last. The game had been arranged for the morning, as it was thought the ice would be in better condition then. The play was very even all thru the game, the score being two all up to nearly the end of the game, when Stony scored the winning goal. The game on that day was made possible thru the courtesy of the Canadian National Railways, the early morning train from Vancouver making a special stop at Duffield to pick up their team.

The big event held around Stony for some time was the auction sale last week at the Charles Schultz farm. Sleighs laden with passengers had been arriving in town all morning, and by 1 o'clock the crowds on the grounds reminded one of an old Fair Day in Stony. The bidders were active right from the start, and the bidding was so heavy at one time it tipped over the hay rack on which Auctioneer Dan Brox was perched. The machinery, stock etc. all brought good prices. Two teams of the registered Percheron aires went to: Henry Enders, one team for \$409.50; Th. Wudel, one team for \$393. The sale was the most extensively advertised of any sale held in this district, and the results achieved were entirely satisfactory to all all parties concerned.

Coming sales: H. T. Walton on March 23; Gus Mintz, on March 25.

Welcome the Newcomer

The immigration season is just opening, and, judging from all reports and present prospects, Canada is due to receive a larger influx of settlers than in any year since the period between 1890 and the outbreak of the war. This increasing stream of people Canada owes results from a number of factors. In the first place, conditions in Europe are more favorable than they have been since the upheaval caused by the war, and people who have long been anxious to emigrate are better able to do so. Canada, too, has somewhat relaxed the restrictions imposed on immigration following the war and when this country, like all others, was faced with the problems of readjustment and the reestablishment in civilian life and employment of the hundreds of thousands of Canadians whose energies had been devoted to war activities and industries. Until our domestic problems of unemployment and rehabilitation had been solved it was generally considered unwise to allow any large numbers of new people to enter the Dominion.

The economic and financial situation throughout Canada has likewise enormously improved; employment is now general; great development enterprises are under way; railway and building construction is increasing; trade and commerce is steadily and rapidly expanding.

Agriculture has enjoyed several fairly prosperous years, and, whatever may be the difficulties yet to be overcome, they are being faced and solved, with the result that the Canadian farmer is today in a much better and more hopeful position than is his fellow agriculturist in the United States. The Canadian farmer through organization and co-operation has successfully met problems which still confront the United States farmer, and solutions to which he asks Government authorities to provide.

The success of the Vancouver, the steady reduction in taxation, Federal, Provincial and Municipal, decreasing railway deficits, increased railway branch line construction, all are helpful factors in the economic structure, leading to confidence in Canada and encouraging to intending emigrants as providing substantial reasons why they can succeed in this country.

But, as has been stated in this column on more than one occasion, successful colonization is much more important than quantity in immigration. Canada wants more people, no one disputes that fact. But, above all, Canada's future, growth, prosperity and sound national development demands that our immigrants be transformed in the shortest possible space of time into contented, law-abiding, prosperous people, resulting in permanent homes and good citizenship.

To achieve this much to be desired end, governments, railways, and organizations of many kinds are doing much and can do more, but, in the final analysis, municipal and school bodies, and the individual neighbors of these newcomers can exert the most powerful and helpful influence. Every rural municipal council, every rural school trustee board, should in itself be a small local colonization board, alert and ready to make welcome each and every incoming settler, regardless of his race, creed or circumstances in life.

Present settlers should make it a part of their duties of citizenship to extend a hearty welcome to their new neighbors, to offer such advice as may be necessary, and give a helping hand in time of sickness or difficulty. These newcomers, if they encounter, will become permanent residents. As such they will help to develop the district and the Province. They will bear their share of the tax burden, and thus lighten it for all. Their presence will mean better roads, better schools, and the possibility of modern conveniences now considered out of the question because of cost to the present sparse and scattered population.

The eyes of the world, and especially of Great Britain and the rest of the Empire, will be focused on Canada in this year of its diamond jubilee. Tens of thousands of people will come to make their future homes in this Dominion. Their success in the great adventure means everything to them, but it will also mean much to the future of all Canada. No Canadian of today can render greater service to his country than by being all that lies in his or her power to make immediate to the Dominion this year successful by the conversion of the newcomers, through sane and practical colonization, into permanent settlers and worthwhile citizens, the greatest asset of any country, and the only abiding foundation of national greatness in the truest meaning of the term.

Liner for Jungle Airway

For a jungle airway from Khartoum through Central Africa to Kisumu in the Kenya colony, a distance of 1,200 miles, a big triple screw air liner is being designed in England. It will be based on the flying boat hull from the Air Ministry which proved to be the fastest in existence. Owing to the presence of rivers, lakes and swamps along the route, it will be possible by using seaplanes to alight at almost any point.

Explanation is Simple

Talking failures women less than it does men, a Finnish scientist has in a dry objective way, without entering into the controversy as to whether the female is more talkative than the male. The scientist explains his statement by two facts: First that the greater the length of the vocal cords, the more energy is required to produce a sound; second, that the vocal cords of women are shorter than those of men.

Urges End of Wars

British Envoy to Washington Pleads for Anglo-Saxon Unity

"The sort of unity I want to see grow up among the English speaking peoples is a unity of heart and understanding," said Sir Esmé Howard, British ambassador to Washington in a speech on Anglo-Saxon unity, delivered before the Twentieth Century Club at Washington. "I should like it to be an accepted fact," he added, "in the mind of every man, woman and child in all English-speaking countries that come what may we still will never war with each other—that such a war would be like a duel between brothers—a thing unholy and impious, not to be even thought of."

"If we have to spend large sums on armaments," he said later on, "let us at least do so without reference to the armaments of the other but only considering our own necessities for protection generally. There can be no unity of heart or of purpose if we are going to begin cycling each other with suspicion every time the other builds a new ship or device, sense organ of destruction."

Speaking of conditions in Europe, Sir Esmé reminded his hearers that Great Britain could not ignore the continent in her efforts to preserve Anglo-Saxon unity.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. F. Norman, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because I cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain killer, one you can depend on, get a 35c bottle of Nerviline today; it will make you well quickly."

Only one mother of a president of the United States used to see her son inaugurated—the mother of William McKinley.

CONDITIONS THAT CALL FOR A TONIC

Symptoms That the Blood is Thin Should Not be Neglected

Weak, lacking in strength, energy and ambition, sleepless, poor appetite, digestion disturbed—these are the symptoms of a great majority of people who have been benefited by the use of Dr. Williams' Pink Pills. The great value of this medicine in cases of this kind is proved by the statement of Mrs. W. Hensher, Kingston, Ont., who says:—"Following a severe cold I was left in a run-down, nervous condition; I had pains in the back and limbs and could scarcely move about. I did not sleep well at night and was despondent and discouraged. I decided to try Dr. Williams' Pink Pills, and can truthfully say that after the use of six boxes, the change in my condition was nothing short of marvellous. The pains vanished, I slept well, had a good appetite, and in every way felt well and strong. I also gave the pills to my daughter, who was in an anemic condition and feeling quite miserable, and in her case, too, they restored health. I hope my experience may help some other weak person."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. A little book, "Building Up the Blood," which contains many useful health hints, will be sent free on request.

The easier it is to reform a man the oftener you'll have to do it.

Gores Flea Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectic Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Corns are painful growths. Holloway's Corn Remover will remove them. As a woman's beauty fades her brains come to the front.

Ceremonies may differ, but true politeness is the same the world over.

Mina's Liniment for Rheumatism.

Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one day that I kept my bed for six months. "My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wife and hands would swell up so that I couldn't write my name. I dreaded bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal."

Three years ago I decided to give Tanlac a try, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The agonizing, nerve-racking pain, stopped, my appetite came back and I could eat heartily. My nights became almost free of pain, too, and I slept

soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. I never have an ache. It's hardly believable! If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from overwork or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 25 million bottles sold.

Cancer

After twenty years of practical experience and research, the late Dr. F. W. Forbes Ross, noted cancer specialist, announced, in 1912, that cancer is caused by deficiency of potassium "salt" in the body and Leucine deficiency is remedied. Cancer, even in advanced cases, will retrograde. Before his death, the eminent English authority abundantly proved the truth of his assertion and, since then, the voluntarily written testimony of thousands of sufferers who state they have been completely restored has brought justified hope and confidence to countless others on both sides of the Atlantic ocean.

The public, but slowly realizing the unpleasant truth that while scientific refinement deprives all white flour and white sugar of the last trace of potassium, the boiling of our vegetables also destroys the health-preserving organic salts which an all-wise Creator originally placed in them and a civilized world, having eliminated its food values, is today consuming what Dr. Forbes Ross described as "muck minus minerals."

Such diets contain more acids than the human liver can neutralize or dispose of and the consequent inevitable potassium starvation results in rheumatism in any of its varied forms, neuritis, eczema or any of the maladies caused by potassium deficiency, including ulceration of stomach or other organs which, if not remedied, is liable to degenerate to cancer. In fact, the now practically universal intestinal stasis or constipation of civilization, which no purgatives or laxatives will ever cure, is the certain forerunner of misery or even of all humanity's malices, of which cancer is the most deadly.

When, but not until drastic reform takes place in modern diet, will men and women appreciate their personal ability to avoid not only Cancer, but almost all the prevalent maladies which are actually, if unconsciously, self-inflicted. To such drastic reform occurs, sufferers will continue to alleviate their individual potassium starvation by taking at home, with their meals, the small direct of The Cantanium Treatment which, with fully explanatory literature and interesting case reports, can be obtained from Charles Walter, 51 Brunswick Avenue, Toronto, 4, Ontario, Sole Canadian and U.S.A. representative of The Cantanium Company of England.

Eating animal fat, in the form of butter, cream or meat, is now stated to be of great assistance in warding off tuberculosis.

Alberta Oil Producers

Three different types of oil are being produced in the Turner Valley field near Calgary. Rosalite No. 4 and Vulcan are producing 8,000 and 10,000 barrels daily, respectively. The third, New McDaniel-Sigur, crude, The last was producing 100 barrels a day by bailing, and a pump is being installed.

CANCER

Great Success of Cantanium Treatment

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salt" in the body, which causes the cells to break down and become malignant.

In order that every one may learn the real cause of Cancer

A remarkable book has been specially written.

This book will be sent free to patients or any one who is interested in the most successful method of fighting "THE CANCER SOURCE."

The following is a list of the chapters:

1. The Limitations of Surgery; 2. Some Doctors' Opinions; 3. What Causes Cancer? 4. Why the BODY CANNOT RESIST; 5. The Cause of Cancer; 6. Common Errors in Diet; 7. The Elements of Food; 8. Medical Enforcements of Potassium "Salt" in the Body; 9. The "Phosphorus" Element; 10. The "Potassium" Element; 11. The "Sodium" Element; 12. Potassium Causes Lung Cancer; 13. Direct Value of Potassium; 14. Parts of the Body Liable to Cancer; 15. Parts Which are Seldom Affected; 16. The Cause of Cancer; 17. How to Avoid Cancer; 18. Death-rate of Cancer; 19. The Arterial System and Old Age; 20. Rheumatism, Gout, and Kindred Complaints.

This book is a number of interesting case-reports proving the efficacy of the Cantanium Treatment in various cases. The treatment is simple for the patient and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Publicity As the Basic Factor In Development of Markets for Natural Products of Canada

Publicity as the basic factor in successful salesmanship is receiving an increasingly large measure of attention at this time. The movement is not confined to the confines of the art of advertising as first cultivated. It has spread to Great Britain and the continent of Europe and before long the world is likely to see a rivalry in that direction that cannot but exert a marked educational effect. Addressing the annual convention of the Fruit Growers' Association of Ontario and the Niagara Peninsula Fruit Growers' Association at Hamilton, when presenting the report of the work of the Canadian Horticultural Council for last year, Mr. E. J. Lake, of Montreal, stressed the importance of an organized campaign of advertising. Yielding the opinion that the Canadian apple was the finest in the world, he pointed out that through advertising, fruit growers could educate the public to eat a baked apple instead of a grapefruit for breakfast. Instead of sending out money out to foreign countries, Canadians should buy their own products. This is sound advice, and the way to give it practical effect is by utilizing in every possible direction the publicity methods that have proved their ability to create gigantic and profitable business enterprises.

Earlier in the year Mr. J. Allan Ross, Canadian manager of the William Wrigley Company, a convincing example of a concern built up and sustained through extensive advertising of a product of defined quality, declared in Toronto that no land nor people is blest with greater natural resources than Canada. He pointed out that Britain and the United States provide a market of 150,000,000 people to whom the offer of Canadian opportunity can be made. But the process will be very slow if an intensive selling of that opportunity is not carried on in every sound and reasonable way over the next five years. Mr. Ross suggested that a sum of \$8,000,000 should be placed in the Federal budget every year for the next three years to be spent specifically in telling the people of Great Britain and the United States about Canada during the next three years, her golden opportunity and certain future. That, he said, would be good salesmanship. Possibly mention of a sum like \$8,000,000 may seem ridiculous to many people. But when one considers the immense sums appropriated by commercial concerns for publicity purposes that have only a small fraction of the value Canada has to offer, the suggestion assumes another aspect. Judiciously planned and expended, advertising is really an investment with much greater certainty of profit than can be assumed in the case of less extensive and varied marketable offer.

Would Produce Sugar for Prairies

Alberta Sees Possibilities of Supplying Sufficient Sugar for Western Market

The possibility of Alberta becoming the domestic producer of sugar for the entire Prairie Provinces was suggested by T. G. Wood, district manager of the Canadian Sugar Factories at Raymond, who stated there was room for at least eight or ten more factories with a capacity of 1,000 tons of beets per day. Producing sugar for the entire population would mean the utilization of about 100,000 acres of irrigated land which would employ the energies of 5,000 to 10,000 farmers and provide farm labor for approximately 6,000 to 8,000 men. The one factory in operation has already absorbed about 500 European laborers as hand workers on the crop.

Punishing Profiteers

Profiteering grocers are being punished in a new way by the Paris police, who forbid them to make their usual sidewalk display of goods for varying periods. When sentencing offenders to silence, their wares from the sidewalk the Prefect tells them: "Your customers will know why you have no display, and they will know they will do well not to patronise you."

W. N. U. 1972

Combating the Weed Pest

Aggressive Campaign by Farmers Would Soon Bring About Marvellous Change

The world's greatest Teacher, in making applications of truth, referred to the flowers of the field, "how they grow; they tell not, neither do they speak." In Western Canada, its beautiful native flowers are being rapidly eliminated by cultivated fields, and much of the virgin beauty of the prairies is gone forever. In their place we have waving fields of grain, which, while not appealing so much to the aesthetic in man, does supply his daily wants.

In these vast fields, which are so much admired, there is a serious menace showing itself more and more each year. This is the weed pest. The farmer wants to get busy. Consider how the weeds grow. If we may judge by their prolificacy it certainly looks as though there was considerable loss to the farmer if he hopes to combat the weed pest. Useful plants deplete the soil fast enough without having it done by weeds, which are almost useless to both man and beast, at least so far as is known at present.

What a short-sighted policy it looks to see so much of our grain fields taken up by useless weeds of various kinds. We believe present conditions can be vastly improved and the matter is entirely up to the farmers themselves. If they would band themselves together and formulate a live aggressive campaign, a year or so would see a marvellous change. When we realize how much good grain is crowded out by weed plants, the loss in yield, paying for time and threshing, and carrying to market that which in the end the farmers are docked for, surely good interest would be earned for the effort put forth. Better to get busy at once for each year you toll not in this matter the stronger and more firmly entrenched becomes the enemy. Economists and others may tell our farmers about these things, but the farmers are the only one who are able to apply the remedy.

Liza was on the witness stand. "Are you positive," inquired the prosecutor, "that you know where your husband was on the night this crime was committed?" "If Ah didn't," replied the witness firmly, "den Ah busted a good rollin' pin ovah an innocent man's head, dat's all!"

Achieve Production Of Synthetic Gasoline

Method Has Been Discovered by French Engineers in Report

Synthetic production of gasoline on a commercial basis at two thirds of the present cost is announced as achieved by two French engineers, Albert Prudhomme and Eugen Roudry. Development of their method was supervised by an engineer for the mines commission of the chamber of deputies and is declared to be of national interest.

A small plant is said to be actually extracting five gallons of gasoline, four of fuel oil, and valuable sulphur from a ton of lignite. There is estimated to be enough lignite available to supply France with gasoline by this method for 150 years.

The process consists in distilling lignite gases from which the various products are extracted by chemical processes already known. These processes, however, are modified by the introduction of metal particles which facilitate the chemical action to a degree hitherto unattainable.

Winnipeg Newspaper Union

An Attractive Frock for Many Occasions

This frock shows to special advantage the charm of combining two materials—so smart this season. The skirt has two godets in front and two at the back and is gathered to a bodice having a becoming round collar and long light-fitting sleeves finished with trim cuffs. A narrow belt of the contrasting material completes this chic frock. No. 1502 is in sizes 8, 10, 12 and 14 years. Size 10 years requires 2 1/2 yards 25 inch material for the dress, and 3/4 yard 36 inch contrasting for godets, collar, cuffs and belt. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically, by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Government Action Is Urged To Protect the High Standard Of Canadian Seed Wheat

Western Hay for China

Two Hundred Tons of Alfalfa Shipped to the Orient

Two hundred tons of alfalfa hay were shipped recently from the Lethbridge, Alberta, district for China—the first shipment of Canadian hay to that country so far as is known. The hay was moved to the Pacific coast in a special C.P.R. freight of 20 cars and was loaded at Vancouver on the Blue Line Tyndarose for Hong Kong.

The order for the large shipment was received by W. C. MacKenzie, manager of the Southern Alberta Cooperative Association, from the British government agricultural department, London. It is thought that possibly the hurried order was brought about by the war in China and the concentration of British emergency troops in the disturbed area.

Only No. 1 well baled hay was sent in the hope that the shipment will be the opening of a large trade with the Far East.

Diversified Farming

Alberta Farmers Getting Away From Straight Wheat Growing

Alberta, formerly almost 100 per cent. straight wheat farming country, has changed radically in this respect in the last fifteen years, and although the wheat yield in the province in 1928 was 112,600,000 bushels, this represented only 45 per cent. of the value of the agricultural products, which totalled \$264,000,000—the greatest in the history of Alberta. Polder crops are climbing rapidly in the percentage table of values, being now 21 per cent., while dairy products are now 8 1/2 per cent.

Chief Scout Celebrates Birthday
Sir Robert Baden-Powell, founder of the Boy Scout and Girl Guide movements, celebrated his 70th birthday recently which was also the birthday of his wife. Both are at present in South Africa. There are now 2,000,000 members of the organization which Sir Robert founded in 1908 "to promote good citizenship in rising generations."

Action to amend the Dominion Seeds Act, to protect the grade of Canadian wheat, has been taken by the agricultural committees of the House of Commons, when it recommended that the bill be amended to give the Minister of Agriculture the right to refuse a license for the sale of new varieties of wheat for seed purposes until the quality of the new variety has been passed on.

It was also urged that the Minister have power to revoke any license already granted for a new variety of wheat, upon recommendation of the board mentioned. Hon. W. R. Motherwell approved the resolution and assured the committee that legislation would be prepared covering it.

E. J. Garland, Bow River, thought that agriculturists were in danger of being legislated out of business. A person buying seed wheat should be protected, but it should not be made almost impossible for a farmer to experiment with the growth of new varieties of wheat.

Hon. S. F. Tomlin, Victoria, B.C., said that the high standard of Canadian wheat should be maintained by the strictest means. Every freedom should be given a farmer to try to develop new varieties, but full scope should not be allowed the "quack" growers to dump their products throughout the country without first proving the value of the variety.

Big Trade With Russia

Soviet Republic Places Heavy Orders for Canadian Agricultural

Orders for agricultural implements placed in Canada by the Union of Soviet Socialist Republics this year to date are already twice as large as those placed with Canadian firms for the whole of 1927. According to figures supplied by the U.S.S.R. Trade Delegation in Canada, enough mowers have been bought here in the first six weeks of the present year to cut 21,000 acres per day for a twelve-day haying season; enough binders were bought to cut 600,000,000 sheaves of grain from 42,769 acres—these binders, if stretched out with a yard space intervals would cover 6 1/2 miles, while the mowers, placed abreast, would span 11 miles. Some 9,000 horses will be required to drive these machines. Binder twine bought by the delegation, in the period mentioned, runs to 5,000,000 lbs. or just half of Canada's total exports to all countries in 1926. Incidentally, the delegation points out that while, before the revolution only 500 tractors were in use in what was then known as the Russian Empire, some 10,000 are now being operated in the same territory.

Tomato Is a Fruit

That old question regarding the status of the tomato, which has been stirring up strife for years, has finally been settled by Order-in-Council of the Dominion Government. Henceforth the tomato is to be termed a fruit, in so far as the Dominion Department of Agriculture is concerned, according to a statement by Fruit Commissioner McIntosh at the Ontario Fruit Growers' Convention in Hamilton.

Many Homestead Entries

Yet further increases in homestead filings in Western Canada are already recorded for 1927. The number of homesteads filed in the month of January was 342, as compared with 276 in January 1926, and increase of 61. Filings in Manitoba were 36, against 27; in Saskatchewan 158, as against 145; in Alberta 115, against 100, and in British Columbia 6 against 4.

So valuable was the Canadian canoe boat up to fifty years ago that the population used it as money.

Veteran of Canadian Service

Mounie, the lead dog of the Chai-nai Frontenac husky team, has seen five years active service with the famous Royal Canadian Mounted Police, in the far north. Four years ago he was brought from La Pas, Manitoba, as lead dog for the team in Quebec. Now in his old age he has every care and attention, eleven years of faithful service should have some recompense. This dog is almost human in every way, and particularly where age is concerned, this he reminds, and often acts in an impatient manner to be put into the team. Beauvals, driver of the team, cannot resist his dumb appeal not to be counted too old to carry on the work. The faithful brute's entire life has been one of service, and he still longs to be counted in the running. He may rest one day or two but he evidently has made up his mind to die game, not while he lives will he allow the other lead dogs to take his place entirely. He has not been in the service of the Dominion of Canada without spirit and grit behind him, and these still carry him far to be of service to Winter Sports enthusiasts in old Quebec.

SPOHN'S
DISTEMPER
COMPOUND

Keep your houses working with
"SPOHN'S" Standard remedy
for 31 years. It is the only
remedy for all kinds of
distemper, including, Gravel and
Gout, Glandular diseases, and
all kinds of skin diseases. It
is sold by all druggists. It is
made from the finest materials
and is the only remedy of its
kind in the world.

The Leader

Tallest Man in Smallest Country
The tallest man in the world comes
from the smallest country in the
world. In the tiny republic of An-
dorra lives Jose Penules, who is 32
feet 6 inches tall. Goliath, according
to Biblical experts, was only 19 inches
taller than this, but Jose may yet
reach that mark, for he is only 19 and
still growing.

The Oil of the People—Many oils
have come and gone, but Dr. Thomas
Electric Oil continues to maintain
its position and increase its sphere
of usefulness each year. Its sterling
qualities have brought it to the front
and kept it there, and it can truly be
called the oil of the people. Thou-
sands have benefited by it and would
use no other preparation.

Alaska may be the land of the mid-
night sun, remarks the Los Angeles
Times, but we don't have to go that
far to find the land of the 1 a.m.
daughter.

Mother Graves' Worm Exterminator
will drive worms from the system
without injury to the child, because
its action, while fully effective is mild.

WORLD HAPPENINGS BRIEFLY TOLD

The French court of cassation, the
highest court of the country, has
ruled that pedestrians are subject to
traffic rules like vehicles.

The discovery of a new star of the
twelfth magnitude has been announced
at Cracow. It was discovered by
Assistant Professor Casimir Korde-
lewski, of Cracow University.

Mrs. Amanda Riel, sister-in-law of
Louis Riel, famous rebel, is dead at
Winnipeg. Mrs. Riel died on a street
car from heart disease. She was
born in St. Boniface, 55 years ago.

The United States has definitely
proposed to Great Britain and Japan
a three-power naval limitation confer-
ence to meet in Geneva not earlier
than June 1.

Thomas P. Dawson, 69, who attained
international prominence during the
Great War for his relief work in
Belgium as an associate of Herbert
Hoover, died recently in Providence,
R.I.

The Dominion Government's ice-
breaker, the Stanley, has entered the
Halifax dry-dock for a thorough over-
hauling and refitting preparatory to a
voyage to Hudson Bay on survey
work.

Opening of the new United States
legation at Ottawa may have to be
deferred until after July 1, because
there are no funds for that purpose,
due to the fact that congress failed to
enact the deficiency appropriation.

The Royal Air Force is planning an
attempt to break the world's distance
flight, in a non-stop aeroplane run. A
powerful plane is to start from Cran-
well, Lincolnshire, and in the di-
rection of British India as far as its
fuel and other equipment will permit.

The Canadian Government has been
invited to send a delegation to a
world agriculture congress called by
the Italian Government to convene at
Rome, April 25 next. The Depart-
ment of Agriculture stated it was un-
likely that Canada would be repre-
sented.

HEADACHE, COLDS, COSTIVE BOWELS, TAKE "CASCARETS"

To-night! Clean your bowels
and end Headaches, Colds,
Sour Stomach

Get a 10-cent box now.
You men and women who can't get
feeling right—who have headache,
coated tongue, bad taste and foul
breath, dizziness, can't sleep, are
bilious, nervous and upset, bothered
with a sick, heavy, distended stom-
ach, or have a bad cold.
Are you keeping your bowels clean
with Cascarets or merely forcing a
passageway every few days with
salts, cathartic pills or castor oil?

Cascarets work while you sleep;
cleanse the stomach, remove the sour,
undigested, fermenting food and foul
gases; take the excess bile from the
liver and carry out of the system all
the constipated waste matter and poi-
son in the bowels.

A Cascaret tonight will straighten
you up by morning—a 10-cent box
from any drug store will keep your
stomach sweet; liver and bowels regu-
lar, and head clear for months.
Don't forget the children. They love
Cascarets because they taste good—
never gripes or sickness.

Helping New Canadians

There can be no more public-spirited
work imaginable than that of mak-
ing the foreigners in our midst good
Canadian citizens. If a helping hand
is not held out to them, if they are
not taught the principles of our gov-
ernment and inducted with the spirit
of Canadian institutions, then instead
of being an asset to Canada they be-
come a menace.—London Free Press.

Internal parasites in the shape of
worms in the stomach and bowels of
children sap their vitality and retard
physical development. They keep the
child in a constant state of unrest
and, if not attended to, may shorten life.
The child can be spared much suffer-
ing and the mother much anxiety by
using as Miller's Worm Powders, which are
sure death to worms.

"Once upon a time," is the way fab-
les begin, and after a man goes out
once upon a time he begins to tell
his wife fables.

Minard's—the dependable liniment.

Women of Canada Pay Striking Tribute to Aluminum — the Modern Metal

FROM Windsor, Ontario, to
Hudson's Bay, from Halifax to
the Rockies, **RED ROSE TEA**
within the last few weeks has scored
an extraordinary increase in sales.

It is because we have stopped using paper pack-
ages, and are again packing this finest of teas in the
old, familiar Aluminum package of years ago.

The reception it has been given demonstrates
beyond all doubt that housewives of Canada recog-
nize Aluminum as the perfect container.

For more than thirty years we have been experi-
menting with packages—trying lead, paper and
Aluminum—seeking always a material that would
protect and be worthy of Red Rose quality.

But it was only after Red Rose has been offered
to the public in all these packages—first lead, then
Aluminum, then paper—that the great advantages
of Aluminum were proven.

Aluminum keeps out moisture, preserves the
flavor and protects the quality. Paper packages, on
the contrary, absorb moisture which occasionally
impairs the quality.

So now and in the future **RED
ROSE TEA** will be packed in the
Aluminum package, as it was in
years gone by.

Leads in Asbestos Production
Canada still leads the world in as-
bestos production. In the year 1926
the Dominion's output was 255,000
tons of a world's total of 340,000 tons,
according to the latest compilation.
Rhodesia furnished 51,000 tons and
Russia and Cyprus 20,000.

On any given day there are on the
seas, counting only the value of ships
over 3,000 tons and the cargoes
borne, no less than £700,000,000
worth of trade under the British flag.

Was So Nervous The Least Noise Made Her Jump

Mrs. W. H. Yates, Ashburn, Man-
it writes:—"I was bothered very much
with my heart and nerves, and the
least noise would make me jump and
almost stop my heart beating.
I told my mother about it one day,
and she said that she had been
bothered the same way and told me to
get a box of

When I had taken the one box I felt
quite a lot better and by the time I had
taken three boxes I got relief."

SUNDAY SCHOOL LESSON

MARCH 26

THE CHRISTIAN'S HOPE

Golden Text: In my father's house
are many mansions; if it were not so,
I would have told you; for I go to pre-
pare a place for you.—John 14:2.

Lesson: John 14:1-3; 2 Corinthians
5:1-10; 1 John 2:2, 3.

Devotional Reading: Revelation 21:3-7.

Explanations and Comments

1. The Promise of Christ, John 14:3.—"Let not your heart trouble: be-
lieve in God, believe also in Me."

"'Twas the Master himself who
said it.
To the sorrowful little hand,
Facing an hour of darkness
That they could not un-
derstand."

"In my Father's house are many
mansions," thus Jesus comforted
them. Our word "mansions" meant
originally merely a place of shelter,
and accordingly the margin of the
Revised Version has the word "abiding
places."

In speaking of his own death, Jesus
said, "I go away," "I go to the Father."
So Paul said, "The time of my de-
parture is at hand." They were
travelers, setting forth on a journey
to a better country. So Christ would
have us think, not that we are going to
die, but that we are going to set
forth on a journey that ends at our
Father's house.

If it were not so, I would have told
you." In the minds of all peoples
there is a belief in a future life. This
belief, Jesus's words tell us, is true,
for otherwise he would have disillus-
sioned the minds of his followers.

"I thank thee, O Father, that there
is a voice within me which contra-
dicts the silence of death."—George
Matheson.

CHIEF FEATURES OF ONTARIO'S NEW LIQUOR LAW

Toronto.—The following are the chief features of Ontario's new Liquor Control Act introduced in the Legislature by Premier Ferguson.

All liquor must be purchased through the government agency.

Permits are of five classes, as follows:

Individual permit to a resident of Ontario.

Individual permit for any period not exceeding one month to a tourist or temporary resident.

Special permit to physicians, dentists, veterinarians and those in scientific or mechanical pursuits.

A special permit for ministers of the gospel for sacramental purposes.

The board has further authority to issue a special permit as authorized by the regulations for the sale of liquor for the special purpose named in the permit.

Druggists are not permitted to dispense liquor.

Breweries and distilleries can only sell in the province to the board under a permit from the board.

No liquor may be consumed in a public place. All liquor must be consumed in the residence or temporary home of the purchaser.

The commission will establish stores for the sale of any or all classes of liquor at such points as they may deem best in the public interest but no store may be established in any municipality where the Canada Temperance Act is in force, nor where a bylaw under local option had prohibited the sale of liquor at the time of the coming into force of the Ontario Temperance Act in 1916.

Light beer, as defined by the act, and which is ordinarily known as 4.4 beer, may be sold in such places as the board designates, under permit from the board.

There shall be no public advertising of liquors.

No person, except with the permission of the board, shall have in his possession in this province any liquor not purchased from the board.

This section takes care of the private stock that any citizen may already have that is legally purchased and the board has absolute control over all the liquor that is found in Ontario.

The board may appoint staff of inspectors, and this staff, in cooperation with the provincial police and local constables, shall co-operate in the enforcement of the law.

All prosecutions will be conducted under the Department of the Attorney-General of the province.

Any person found selling liquor in Ontario will be imprisoned for two first offence without the option of a fine. There is a great variety of penalties for other offences under the act.

Arms Parley This Fall

Geneva.—The League of Nations council adopted a resolution to the effect that the international conference for supervision of private manufacture of arms should be held this fall.

Had Terrible Headaches and Was Unable to Sleep

Saskatchewan Man Used Dodd's Kidney Pills With Great Success

Mr. N. Zilan Was Relieved of His Trouble After Taking Short Course of Dodd's Kidney Pills.

Laventure, Sask. (Special) — "I want to tell you just what your Dodd's Kidney Pills have done for me," writes M. N. Zilan, a resident of this place. "I had terrible headaches and could not sleep but after taking two boxes of Dodd's Kidney Pills I commenced to feel fine. I cannot praise this kidney medicine enough and would not be without it in my home."

Proximate headaches and sleeplessness can usually be attributed to a run down and exhausted condition. Other symptoms are irritability, tired languid feelings; depression and loss of energy are also the outcome of this condition.

It is necessary that you take a few weeks treatment of Dodd's Kidney Pills to restore vitality and generally tune up the nervous system.

W. N. U. 1672

Interim Pool Payment

\$27,000,000 Being Distributed to Farmers in Three Prairie Provinces

Regina, Sask.—The Canadian Co-operative Wheat Producers, Limited, central selling agency for the three provincial wheat pools, announces that the first interim payment for the 1926-27 crop is being mailed from the offices of the Manitoba, Saskatchewan and Alberta pools. The amount of the payment is officially stated to be 12c per bushel for spring wheat and spring wheat mixtures, 26c per bushel for durum wheat and durum wheat mixtures, 8c per bushel on all grades of oats, 8c per bushel on all grades of barley, 12c per bushel on all grades of flax. A total of \$27,000,000 is thus distributed to prairie farmers in the three provinces, according to Mr. McPhail.

Saskatchewan's share of the \$27,000,000 being distributed as a result of the interim wheat pool payment on the 1926-27 crop amounts to be between \$17,500,000 and \$18,000,000 according to an official statement issued by the Saskatchewan Co-operative Wheat Producers, Limited.

Officials of the pool call attention to the fact that this huge sum of money, scattered widespread over Saskatchewan just prior to seeding, represents one of the tangible benefits of the pool system of marketing, which was absolutely unknown prior to the organization of the pools in 1923 and 1924. The beneficial effect of these payments is not only recognized and greatly appreciated by pool members, but it is recognized by bankers and stockmen alike.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapiesin" Corrects Sour, Upset Stomachs at Once

"Pape's Diapiesin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

Would Amend British North America Act

J. S. Woodsworth Suggests Committee be Appointed to Change Constitution

Ottawa.—A special committee "to consider what amendments might be made to the British North America Act which, while conserving the principles of confederation would enable us more adequately to cope with the complicated problems which now confront Canada," was proposed in the House of Commons by J. S. Woodsworth, Labor, Winnipeg North Centre.

Mr. Woodsworth gave as reasons for his proposal:

A.—The constitutional developments of the last 60 years.

B.—The dissatisfaction of certain provinces.

C.—The changed conditions in industries, commerce and finance not contemplated at the time of Confederation.

D.—The action of the Senate in preventing the enactment of popular legislation.

In proposing his resolution Mr. Woodsworth declared Canada had no way of changing its own constitution, and in this regard it was inferior to South Africa, Australia and the Motherland. He spoke of a "very widespread feeling" in the West that there would be an inevitable break of confederation with perhaps co-operation with the other parts of Canada on some other basis.

Makes First Speech

Quebec.—Hormidas Plon, Liberal M.L.A. for Val-de-France, has made his first speech in the legislature in the twenty-seven years he has represented Val-de-France in the House. He advocated more precautionary tests of cattle imported into the province.

London, with its 7,000,000 inhabitants, has a police force of 20,000 and 900 detectives, one of whom is a woman.

CHINA RESENTS INTERFERENCE OF RUSSIAN SOVIETS

Shanghai.—The drive of the Cantonese for the city of Soochow and the attendant threat on Shanghai are overshadowed momentarily by the possibility of strained relations between the Peking Government and Moscow, growing out of the arrest of Madame Borodin, wife of the ambassador to the Cantonese Government, and three Soviet couriers.

Chinese authorities declare there have been increasing indications that large numbers of Cantonese emissaries have been sent northward in an endeavor to stir up trouble among the workers. Every precaution already has been taken to prevent an influx of these agitators into Shanghai, Tientsin, Peking and other northern industrial centers.

It is charged here that the Soviet League of Nations, on which Mrs. Borodin and the couriers were seized by a squad of white Russians attached to the army of Chang Tsung Chang, had tons of Red propaganda tracts aboard and only a few pounds of tea.

While the military situation between the Cantonese and the northern forces is developing steadily, the question of propaganda is troubling the northern commanders since it is interfering with their transportation of troops.

Urges New Treaty Practice

British Foreign Secretary Asks Negotiation Between Heads of States

Geneva.—An echo of the last Imperial Conference was sounded in the League of Nations council when Sir Austen Chamberlain, British foreign secretary, asked the League to abolish the practice of negotiating treaties as between states and substitute that of treaties between heads of states.

He explained that his statement was made at the request of the British and Dominion governments. It did not mean that the Dominions would lose their prerogative of approving or rejecting treaties but that acceptance of treaties by Great Britain and the Dominions would be facilitated.

The statement made by Sir Austen Chamberlain in the council of the League of Nations was the first of the kind since the League was formed in 1920.

It was the first time since the League was formed in 1920 that the British and Dominion governments had taken such a step.

Think Britain Favors War Craft Limitations

Officials at Washington Believe in Ultimate Success of Plan

Washington. London and Tokyo news agencies clearly indicating that Great Britain and Japan will accept the Coolidge proposal for a conference with the United States at Geneva this summer on auxiliary war craft limitations are taken by officials here to mean that such a project ultimately will be brought about.

While there has not been much doubt as to the Japanese attitude toward such an arrangement British officials here are against any limitation of anti-submarine craft as long as her continental neighbors refused to limit submarine construction and officials have looked to Great Britain to remove the greatest obstacle in the way of a three-power parity.

Public opinion throughout Great Britain as interpreted by that country's officials was described as demanding British acceptance of any plan for naval limitation.

Geneva despatches carried the additional information that Great Britain would insist on linking the three-power parity with France and Italy not exceeding certain tonnage in cruisers, submarines and torpedo boats.

Oil Pipe in Motor Blocked Says Message From Uruguayan Flier

Madrid.—Paralysis of an oil pipe in the motor of his plane brought the trans-Atlantic expedition of Major Tadeo Larre-Borges, Uruguayan flier, to an abrupt end while he was flying from Casa Blanca, Morocco, to Cape Juhl. He made this known in a brief message received by the Uruguayan minister through the high commissioner at Cape Juhl. The message said the failure of the oil pipe to function made it necessary to stop and that the plane was destroyed when it alighted.

Major Tadeo Larre-Borges is in the hands of Moroccan tribesmen who captured him and his three flying companions after the plane was wrecked. He is believed to be held for ransom.

Waiting Outcome of Conference

London.—Great Britain does not intend to lay down any naval vessels of her 1927 program of new construction until late in the year or until the outcome of the disarmament conference is known, William Clive Bridge, first lord of the admiralty, told the House of Commons. Work on vessels already under construction will not be stopped, he said.

Permitted to Fly Over Canada

Ottawa.—The Dominion air board has granted permission to the Ford Motor company to fly "planes over Canadian territory in connection with the company's proposed daily 'plane' freight service between Detroit and Buffalo, N.Y.

First of 3,000 Families for Canada in 1927

Mr. J. Malcolm, Canadian Government Agent, Glasgow, (left), taking charge of the first family of the year to leave Scotland under the 2,000 Families Settlement Scheme. The family comprises Mr. and Mrs. Alex. I. Thomson, and their four children from New Beer, Aberdeenshire, who proceeded to Canada, on board the Canadian Pacific liner "Montclair," to take up farming in British Columbia. They travelled all the way for the inclusive charge of \$16, whereas, the full fare for the family is \$112.

LOSS OF LIFE BY EARTHQUAKE IN CENTRAL JAPAN

Tokio.—Thousands of refugees in Central Japan, shivering, hungry and in need of medical aid, struggling to bring order out of the chaos created by the earthquake, which already is known to have taken a toll of more than 2,000 lives.

The Home Office stated that its latest advices showed 2,425 persons were killed and 3,411 injured. Information received by Tokyo newspapers, however, indicated the total dead in the entire earthquake regions would number more than 3,000, while one newspaper estimated the toll would amount to 5,000, with 50,000 to 75,000 homeless.

The correspondent for the Tokyo Asahi Shimbun, who travelled through the stricken area, reported from Miyazu that the scenes in Min-yama, where more than 1,000 persons were killed, and Amio, were heart-rending. Refugees, he said, were exposed to snow and rain while only a small amount of relief was available.

Many relatives of victims of the quake were digging in the ruins of devastated villages seeking the bodies of fathers, brothers and sons and daughters. Funeral pyres were built and bodies cremated. Other inhabitants of the towns worked with police and soldiers in extricating bodies and giving aid to the injured.

Shallow graves were dug in the snow-covered ground, even small children assisting in the burial rites. Bits of half-burnt sticks, raked from the debris, were used as incense sticks for the offering of prayers before burial. Japanese and Christian preachers and monks were everywhere aiding and comforting widows and orphans.

The newspapers' correspondents general reported that the lack of medical supplies and food was the greatest hardship for the refugees. Injured men and women, along the broken roads asked every passer-by if he were a doctor, so great was their need for medical attention. Doctors and Red Cross nurses were coming into the region rapidly and it was expected they soon would be able to ameliorate the situation.

The roads throughout the region were reported literally lined with the bodies of victims unclaimed by relatives and friends.

London Worker Has Terrifying Experience

Was Swept Into Sewer by Rush of Water and Carried Many Blocks

London.—A workman engaged in cleaning a sewer in Chancery Lane had a terrifying experience when a sudden rush of water swept him into the sewer. From Chancery Lane he was carried at great speed fifty feet down beneath Fleet Street and then into the London Circus, where he was rescued by river police. Beyond severe exhaustion he was not seriously hurt.

He was passed along several other streets and finally was shot out into the river Thames, beneath Blackfriars Bridge, where he was rescued by river police. Beyond severe exhaustion he was not seriously hurt.

Relieves Indigestion Very Quickly

Men and women all over the world have been taking a small, easy to swallow, purely vegetable pill after meals to prevent and relieve attacks of indigestion and sick headaches.

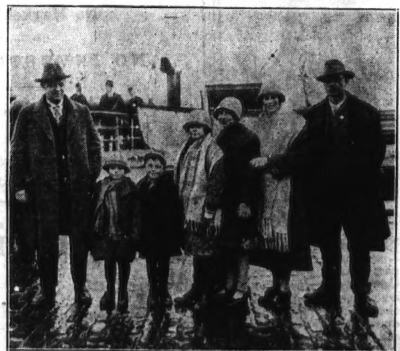

Millions also recommend them as a mild, gentle laxative, moving the bowels free from pain and leaving a pleasant after feeling.

These little pills are a doctor's prescription and have been sold by all druggists as

CANTER'S LITTLE LIVER PILLS. They do not contain any harmful drugs. Try them and you will feel free from indigestion to-morrow.

All druggists recommend CANTER'S LITTLE LIVER PILLS. Men, women and children take them as a daily regulator.

First of 3,000 Families for Canada in 1927

Mr. J. Malcolm, Canadian Government Agent, Glasgow, (left), taking charge of the first family of the year to leave Scotland under the 2,000 Families Settlement Scheme. The family comprises Mr. and Mrs. Alex. I. Thomson, and their four children from New Beer, Aberdeenshire, who proceeded to Canada, on board the Canadian Pacific liner "Montclair," to take up farming in British Columbia. They travelled all the way for the inclusive charge of \$16, whereas, the full fare for the family is \$112.

Here and There

Of the 226,000,000 acres of land
 sown to produce the 1826-27 wheat
 crop of the world, Canada sowed
 about 10 per cent.

Alberta, formerly 100 per cent.
 straight wheat farming country,
 has changed radically in this respect
 in the last fifteen years. The wheat
 yield of 1926 represented only 45 per
 cent. of the value of the agricultural
 products, which totaled \$264,000,000
 for the year, the greatest in the his-
 tory of the province.

The flow of settlers into western
 Canada for 1927 commenced in
 earnest recently when two special
 Canadian Pacific trains brought
 more than 400 persons into Winni-
 peg. About 200 of the new arrivals
 were destined for Manitoba; 100 to
 Saskatchewan, while Alberta and
 British Columbia absorbed the rest
 about equally.

The value of building and con-
 struction contracts awarded in Can-
 ada in 1926 was \$87,547,000, com-
 pared with \$297,973,000 in 1925,
 an increase of 25 per cent. Last year's
 total was the highest for several
 years. Development in the mining,
 power and paper industries in Can-
 ada was an important factor con-
 tributing to the activity in building
 during the past year.

When the Canadian Pacific steam-
 ship Montroyal docked recently at
 New York, after completing her first
 cruise to the West Indies of the
 year, she resembled a floating men-
 agerie, for there were assembled on
 board over 200 love birds, parrots
 and monkeys. These pets were
 bought by passengers on the cruise.
 During the month's cruise the vessel
 touched at fourteen ocean ports and
 visited thirteen countries.

Sweeping reduction in the rates
 of electricity in all sorts of con-
 sumers has been announced by a
 leading electrical company in New
 Brunswick. The new rates are be-
 ing filed with the New Brunswick
 Board of Public Utilities. Under
 the new schedule of rates the house-
 holder will be able to secure elec-
 tricity for as low as 3 cents a kil-
 watt hour, the same rates apply to
 stores and offices.

Good seed cars, under the joint
 directors of the Manitoba Depart-
 ment of Agriculture, the Dominion
 Seed Branch and the Manitoba Agri-
 cultural College, in conjunction with
 the Canadian Pacific Railway, are
 touring the province. The tour
 consists of a lecture car, a baggage
 car with types of all modern farm-
 ing mills and other machines; a hot-
 el car which is the first of its
 kind operated in Canada. Lectures
 and demonstrations are given at
 each stop.

Emile St. Godard, youthful Mani-
 toba dog musher from The Pas, car-
 ried off the honors in the Eastern
 International 120-mile dog derby at
 Quebec recently. St. Godard's time
 for the three-day race was 11 hours
 and 37 minutes, over 54 minutes
 faster than the previous record for
 the same event. He nosed out Les-
 hard Seppala, hero of the Nome,
 Alaska, serum epth by 20 minutes
 and 20 seconds. George Chevre-
 took third place, while "Paddy"
 Nolan, 15-year-old musher, main-
 tained fourth place throughout the
 race.

Peking, China.—Over 400 pas-
 sengers aboard the Canadian Pacific
 Empress of Scotland, now on a
 tour of the world, the largest num-
 ber of foreigners, except the mil-
 lions ever to invade the city, were
 limited recently to the Forbidden
 City for the first time since the
 young Emperor of China evacuated
 it when he was driven out to Tien-
 an, two years ago. The Manchurian
 War Lord Marshal Chang Tso Lin
 accorded safe convoy to the party
 and every courtesy was shown to the
 visitors in their tour through a city
 which so far has been rigorously
 kept off from intercourse with the
 outside world.

Stony Plain and District.

Thru the misinformation supplied by a correspondent, a notice of a marriage which had not taken place was printed in our last issue. The Editor regrets this, as we, as a rule, verify all such notices before publication, but in this case The Star's informant was very positive as to the bona fides, so the item was published. The Editor offers a humble apology to Miss Florence Wheeler of Graminia and Mr Victor Willet of Sand Hills.

Mr Jacob Ulmer left last week for Wenlock, where he will make his home in future.

Mr Ernest Breikreutz is another farmer from this district who will shortly join the trek to the great North. Mr Breikreutz has done exceptionally well since coming to his present location, and was in possession until recently of one of the best half sections hereabouts. This farm has been sold to Mr Adolf Fischer, who will shortly take possession.

For a nearby farm, a quarter section, the property of Mr O G Wudel of Stony Plain, a prospective buyer offered the sum of \$10,000, and the offer was not accepted.

Messrs W.C. Allen and Badke are leasing the whole of section 11 51-2 w5 for grazing purposes, from the Provincial Department of Education.

Mr H Heichen has moved his farming outfit from his place east of the Grove to his new location near Inga Corner.

Stony Plain and District.

Inga Councilors held their inaugural meeting in Stony Plain on Monday last, at 2 p.m. The first business was the election of a reeve for the ensuing year, when Mr M McKinlay was re-elected. A few outstanding accounts for road work were presented and ordered paid, if found correct. A delegation from the extreme west end of the Municipality was present, to protest against the councilors passing the bylaw restraining cattle from running at large. The delegation composed some half-dozen members and was headed by Mr J W Coats. Their protest was received and filed. After some discussion, action on the bylaw was deferred until the next meeting. The next meeting will be held in Stony on the morning of Friday, April 8, at 8.30. This was done for the accommodation of the Councilors from the west end of the Municipality, allowing them to make the return trip by steam cars.

Mr Gus Gitzel left yesterday for his new location in the north country with two carloads of stock and machinery. Mrs Gitzel and children leave on Monday next for the same destination. Master George, who is at present attending the Confirmation class conducted by Rev E Eberhardt, will remain in Stony until Easter week.

Sommerfield & Mayer (Service Garage) have completed a re arrangement of their offices, giving more room for the accommodation of customers. This firm now has on display the newest styles of Chevrolet car in several new lines.

Mr Hy Petzoldt, traveling agent for the North German Lloyd, paid a visit Monday to Mr P Werner, local representative of this well-known steamship line, and expressed his appreciation of the work done in this district by Herr Paul.

The old Carvel schoolhouse has been sold to Mr B B Miller, who has taken it apart and intends moving the pieces to his own farm. The old site of the building has been annexed by Mr Adolf Badke, of whose farm it was formerly a part.

Harold Koehn has returned to his home in Lethbridge.

A communication from the Game Commissioner, Edmonton, says: Permits may be issued to residents south of North Saskatchewan River, to trap muskrats on their own land during March and April. A permit costs \$1, on application to Game Commissioner.

High School Pupils' Party

On Friday evening last the pupils of the local High school spent a social evening at the home of Mr and Mrs E J Kibblewhite. The amusements of the evening were games and guessing contests, which were very cleverly made. One of the most interesting games was charades. The party was divided into three groups, each of which were to tell their best. The winning group was captained by Mury Hopkins. Each of the groups received a little, woven flag. Some flutes were blown by musicians, who entertained the crowd by playing "Ye Banks and Braes." Other games were played which required a good knowledge of geography, and to combine the letters of the alphabet, to represent different articles. The winner of each of these groups was Anna Moyer and Walter Carmichael, each receiving a dainty bag of candy. The next game was a scrambling contest, of which Tilly Enders was the winner. Several other games were played, after which a very delicious lunch was served. After one or two songs were sung the party concluded with every one feeling very satisfied with spending a most enjoyable evening.

Spruce Grove News

On Monday last the Councilors of Spruce Grove M.D. met in Municipal hall, at the Grove, with all the representatives present, including the new councilman, Mr E C McLaughlin.

The official figures of the recent municipal election are: Div. 2, Giese 89, Schultz 72; Div. 4, Sinclair 64, Ball 52; Nicholls 24, Dawedink 1; Div. 6, McLaughlin 121, Dan Brox 46.

Mr Jac Brox is visiting at Elmira, his old home town in Ontario.

Mr Bredo is moving in, this week, to the farm on the Baseline vacated by Mr Heichen.

Spruce Grove was well represented at the Schultz sale last week in Stony, and quite a few of the purchases came to this district.

Youth Victorious in Quebec Dog Derby

1—Emile St. Godard, winner of Eastern International Dog Derby. 2—St. Godard's team on the home stretch. 3—Paddy Nolan, 15-year old musher and team which ran fourth. 4—Alaska's entry, Leonard Seppala, runner-up to race.

Youth made a successful bid for supremacy in the dog racing realm when Emile St. Godard, 15-year old dog musher from The Pas, Manitoba, won the Eastern International Dog Derby held at Quebec February 21, 22 and 23. His team of seven highly-trained greyhound huskies dashed over the finish line of the three-day race, covering the 120 grueling miles in 11 hours and 37 1/2 minutes, beating all previous records by 54 minutes and 35 seconds. He secured for the second time, the first in 1925, the handsome cup donated by the Quebec International Dog Sled Derby Club.

Leonard Seppala, hero of the episode with serum to the stricken Alaskan city of Nome, was a strong contender in the Quebec classic and finished just 20 minutes behind St. Godard. Seppala, experienced driver as he is, was forced to give way to a man 30 years younger, driving a team of better trained huskies than his own. Seppala bettered St. Godard's time by several minutes in the last day of the race, as the winner was forced to stay on the sled a greater

part of the race owing to a strain-laden in his leg. George Chervette dashed every inch of the hilly course for second place but was beaten out by the Alaskan musher.

"Paddy" Nolan the 15-year old contestant made one of the most remarkable showings in dog racing anywhere when he finished fourth out of fourteen entries. He added glory to the reputation made last year, when, although his dogs were disqualified for fighting, he stuck to the trail and finished ninth in a field of 20, the whole of the distance being run in a blinding blizzard. A storm however has been cast over the Nolan household's great race his mother, who had been lying ill in the hospital, died. After each day of the race Paddy would leave his dogs in charge of friends and go to his mother's bedside at the hospital. The courage of this lad is a general topic of discussion, and old and experienced mushers are concerned over his performances.

Young St. Godard hails from the northern Manitoba town where the

use of dogs is a commercial necessity. Here it was that dog racing in Canada first took place. A group of devotees, wishing to perpetuate the Alaskan Sweepstakes, which died out in 1915, gathered in the Snake Room of the Opuscul Hotel and arranged to hold an annual race which they have carried out. St. Godard has been the winner of this long race at The Pas several years, including the race in January.

Out of the dogs in the recent race at Quebec, there were but three recognized "lead" dogs. They were "Tooby" St. Godard's leader; "Pritz" Seppala's lead dog and "Beaver" trained by the youthful Nolan. Frank Dugala, winner of the race last year, finished fifth with but three dogs in harness. It is the driver who can successfully train the leader of the pack who is going to pilot his team to victory. Dogs in a team are not unlike any other racing animals; there must be a guide. Seppala's famous Alaskan malamutes entered the Canadian race this year scattering victory. They battled heroically but lost to a better-trained team.
